## TRAINING & CONSULTATION

As one of the best coffee roastery in the island of Bali, we are determined to keep the quality of our roasts both during and after production. For every wholesale purchase of your selected beans and roasts, we offer intensive training for your baristas in order to pass on the knowledge on how to brew our beans in their best, optimized quality.

We also offer consultation to a wide range of clients —from newly-established coffee shops who needs guidance in their machineries and equipments, all the way to those who needs advanced tips on flavor profiles and further quality control.

## PERSONALIZED SINGLE ORIGIN

Each coffee shop that has decided to jump into the rapidly expanding coffee culture can always add a unique flair into their brand and flavor. Rüstlers Coffee & Roastery is here to accommodate that approach through personalized single origin, where you can request a 'hunt' for the rarest green beans of your choice, roast them at our venue, and neatly packaged for your business.

*Minimum order of green beans: 60 kg  
Minimum order of roast: 6 kg — Wholesale*
